## EXPERIENCE

### AGGREGATE INTELLIGENCE | SENIOR PROCESS ASSOCIATE

May 2022 – Present | Coimbatore, Tamilnadu

- I have been working in a process associate role at a company called Aggregate Intelligence for 2 years and 11 months.
  - Providing real-time data from the website with accurate car details and prices upon customer request. This involves extracting and exporting and finally delivering millions of car details and prices from countless websites at the time of client request.
- MONITORING
- "My role in monitoring primarily involves actively monitoring and overseeing the progress of ongoing tasks or projects (websites) within a business process, ensuring that they are moving smoothly through each stage, following deadlines and meeting quality standards; essentially, monitoring "work in progress" to help identify any potential issues and ensure timely completion and finally delivering on a collection time basis."
  - The programming language used is: SQL, SQL server management studio

## PROJECTS

### MASTER OF COMPUTER APPLICATIONS: | SWITCHING HOME APPLIANCES USING ARDUINO VIA VOICE COMMANDS:

Sep 2020 – Present | J. K. K. Munirajah College of Technology | Gobichettipalayam

- My project focuses on controlling home appliances through voice commands. Traditionally, electrical devices in homes, offices, and businesses are manually operated, requiring significant manpower and increasing maintenance costs. To overcome these inefficiencies, a wireless control system can be implemented using Bluetooth communication.

### BSC COMPUTER SCIENCE: | PHOTO STUDIO MANAGEMENT SYSTEM:

Jan 2018 | Government Arts College, Ooty

- The photo studio management system is a complete system for managing photo processing labs in a most efficient way. By implementing the computerized management for billing, inventory, you could utilize your resources to the fullest extent of efficiency there by stepping up the productivity levels.
- This has been designed and developed after a thorough study of the photofinishing industry's manual system of operations.

## EDUCATION

### POSTGRADUATE ANNA UNIVERSITY

MASTER OF COMPUTER APPLICATIONS

2018 - 2020 | J. K. K. Munirajah College of Technology | Gobichettipalayam (First Class)
